**STATEMENT OF WORK
FE-21130-3J**

1. **DESCRIPTION OF WORK:** Provide all plant, labor, tools, equipment, and materials (except as indicated otherwise in this Statement of Work (SOW) and perform all work in strict accordance with current NEC, NFPA 72 and the Fort Campbell Electrical SOP # 308 and this SOW to Repair Fire Alarm Systems in Various Locations, Fort Campbell, Kentucky.

The principal items to be accomplished are:

1.1 Contractor shall perform repairs, replacement of panels or reprogramming of fire alarm systems in barracks and other buildings.

1.2 . Only new approved/compatible parts are to be used as repair or replacement parts. Provide a written deficiency list, suggested repairs and an estimate of parts and materials for Government review including lead time for parts and materials. Attached bid schedule identifies identified repairs under CLIN 0001 and repair requirements at specific sites, For CLINS 0002 and 0003 there is an attached Time and Material Attachment which identifies T&M repair items.

1.3 Replacement of panels: There are 2 - fire alarm control panels listed for replacement, 1 is a "Clean Agent Release Panel" to go in building 95, a Fire-Lite MS-9200 panel in building 5505A is to be replaced. The shop requests that the addressable panel be replaced with a standard fire alarm control panel compatible with the existing devices. Submittals are required for approval prior to ordering materials.

1.4 Testing and commissioning of new panels are required as recommended by the panel manufacturer, NFPA 72 and 2002 NEC, Four (4) - completion reports are to be submitted upon completion of project. (Fort Campbell Fire inspector requires a certificate of completion upon acceptance and acceptance testing of individual panels)

1.5 NOTIFICATION REQUIREMENTS: Contractor shall notify the Central Dispatch Center before and after working on any fire alarm or sprinkler system. Notification of Fire Station # 1 is required for replacement of any alarm panel or work that may be expected to cause an outage after normal working hours. Fire Department (798-7171), Central Dispatch Center (798-1221 or 798-1224). Contractor shall provide company name, technician name, inform location (bldg. number) and expected duration of outage to Central Dispatch and/or Fire Department. Notice of work completed is required upon finishing a building. If outage is expected to continue more than same day Central Dispatch center is to be notified again upon return to work the following

day even though system has not been back online. Proper notification and coordination with these agencies is required to preclude unnecessary response to false alarms. Failure of Contractor to provide this notification and a false alarm occurs; an automatic deduction of \$312.72 will be made from Contractor's payment.

2. Electronic Technician Qualifications:

A NICET Level 2 or higher Technician, factory trained in the installation, testing and operation of the various equipment in the solicitation shall perform the repairs. I.E. Pyrotronics, King Fisher, etc

Technicians with a minimum of 2 years of experience shall be utilized to assist in the installation and terminate fire alarm devices, cabinets and panels. An electrician may assist in the replacement of panels.

3. Applicable Wage Determination:

4. CONSTRUCTION PHASING: The following construction phasing related issues shall affect the work.

4.1. Interface with Others: Government use of these facilities is anticipated while the work under this contract is being performed. The work shall be planned and accomplished so that there will be a minimum of interference and inconvenience to occupants in the building and vicinity. Any blockage of building exits or driveways must be coordinated in advance.

4.1.1. Most of the work will be in soldier's barracks inside individual soldier's sleeping rooms and will require an escort for access. There are also maintenance facilities and administrative areas work is to be performed.

4.2 Construction Restrictions:

4.2.1 Provide the Inspector with written notice a minimum of 48 hours in advance before any work begins.

4.2.2 Coordinate with Inspector to see if any digging/electrical permits are required before starting any work.

4.2.3 Electrical: No electric equipment shall be installed within or on any Fort Campbell building, structure, or premises, nor shall any alteration or addition be made in any such existing equipment without first securing an Electrical Permit (FC Form 4183) from the Fort Campbell Electrical Inspector in accordance with Fort Campbell Public Works Business Center Standing Operating Procedure (SOP) 308, except as provided within said SOP. Copies of SOP and permits shall be obtained at PWBC, Operations and Maintenance Division, Building 867, 16th Street, Fort Campbell, Kentucky.

4.2.3 **Disposition of Materials:** Disposal of materials and equipment is the responsibility of the contractor at locations specified. No materials or equipment shall be removed from Government property without written permission from the proper authorities. Miscellaneous Metals and Scrap Rubber shall be delivered to DRMO for recycling. The metals can be steel, aluminum, brass, copper and bronze. Empty containers (55 gallon drums, 5 gallon cans, etc.) that have contained petroleum, antifreeze, paint, acid, etc. cannot be accepted as scrap metal and shall be emptied of any liquid contents in accordance with applicable regulations and then flatten and placed in dumpsters at the convenience centers.

4.2.3.1 See Attachment for Waste Information.

4.2.3.2 Smoke detectors: Disposal in accordance with Fort Campbell SOP.

Smoke Detectors to be Removed: Existing smoke detectors which are removed from a building should be turned in to Mike Johnson, Safety Specialist, Installation Radiation Safety Officer, 798.4228.

4.3 **Utility Outages:** Work should be scheduled such that utility outages are minimized. The following specific restrictions apply to this project. (List all utilities with associated restrictions.)

5. **Work Hours:** Normal work hours are from 7:30 am to 4:00 pm, Monday through Friday except Federal Holidays. Contractor shall not be permitted to work other than normal work hours unless authorized by the designated Government Contracting Officer's Representative/Inspector.

6. **Availability of Utilities:** Subject to available supply, reasonable amounts of potable water and electricity will be furnished by the Government, without charge, to the contractor from existing outlets and supplies. Contractor shall reasonably conserve these resources. Contractor shall provide, at its expense, sanitary accommodations for the use of employees and shall comply with the requirements and regulations of the State Health Department, County Sanitarian, or other authorities having jurisdiction.

7. **Safety:** All work and materials used shall be in compliance with the provisions of the U.S. Department of Labor, Occupational Safety and Health Act, pertinent national fire prevention codes and the latest National/Electrical Code.

8. **Contract Period:** The contractor shall be required to (a) commence inspection work under this order within 10 calendar days after the order is issued (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than **60 calendar days**. The time stated for completion shall include final cleanup of the premises.

9. **Submittals:** The Contractor shall provide the specific submittal requirements indicated below. Submittals shall be approved by the Government before the Contractor begins work related to the submittals.

9.1 (4) – copies provide list of deficiencies, suggested repairs, estimate for parts, and materials and lead time for ordered materials.

9.2 (4) – Copies of alarm panel, manufacture’s cut sheets, including installation, maintenance and trouble shooting manuals and any other information necessary for approval.

9.3.(4) – Copies of Site Specific Spill Plan

10. Inspection and Acceptance:

10.1 Testing and commissioning of panels: Contractor shall have tested system for proper operation prior to requesting acceptance testing in accordance with NFPA 72 and manufacturer’s recommendations. Acceptance testing shall be coordinated through the COR and Fire Department. Contractor shall request acceptance tests at least three (3) working days prior to the desired date.

10.1. The Contractor and Contracting Officer Representative (COR) will jointly conduct a pre-final inspection prior to the Contractor requesting a final inspection. Any discrepancies noted shall be corrected prior to the final inspection.

10.2. The Contractor shall request final inspection at least three (3) working days prior to the desired date. If all deficiencies from the pre-final inspection have been corrected the Government will accept the work. If deficiencies have not been corrected or further deficiencies are identified, a timeframe will be agreed upon to correct all deficiencies.

10.3 Only the COR is authorized to make acceptance for the Government and acceptance will be annotated on this Statement of Work.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$2.59 an hour or \$103.60 a week or \$448.93 a month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

- 1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)
- 2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.
- 3) WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek,

you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
